

Go big, go far, and go fast!

If you want to be the baddest boy on the block, then the perfect E-Bike for you is our new Growler. Like the name suggests, the Hercules is a mean machine and is ready to tackle anything. With sharp angular looks, a huge 20ah battery, coupled to a motor that features max power and torque, the Hercules will make a lasting impression where ever it goes and will get you there with an attitude.

Want to explore the world around you without limits, then the Hercules is your ticket to adventure.

Slate Grey

Key features

- > 750 watt motor with torque sensors provide an ultimate biking experience.
- > Hydraulic disc brakes guarantee safe stopping in even the harshest weather conditions.
- > Hi capacity 20ah battery to get you there and back.
